

## Caring for People Living with Cancer

### WHAT WE DO/WHO WE ARE

- We are a specialized team of experts in oncology and home health care
- We provide compassionate, holistic, expert care to patients living with cancer and their families
- We will individualize a care plan to meet the needs of each unique patient
- We assess and intervene early to avoid unnecessary hospitalizations
- We will effectively manage pain and other symptoms in order to improve quality of life
- We are the “eyes and ears” for the physician in providing concise clinical updates
- We pay close attention to psychosocial issues and emotional distress
- We provide Whole Person Centered Care at home
- We provide rehabilitation to bring a patient to an optimal level of independence and functioning
- We close the circle of specialty care for oncology patients
- We deliver care based on best practices and clinical practice guidelines
